Too Much Toothpaste?
You Be the Dentist!

These kids have some dental problems. Use what you learned in “Too Much Toothpaste?” to give them advice.

My tooth is loose! I'm not sure if I should wiggle it.

My advice: _____________________________________________
_________________________________________________________________
_________________________________________________________________
_________________________________________________________________

I don't want to get any cavities.

My advice: _____________________________________________
_________________________________________________________________
_________________________________________________________________
_________________________________________________________________

I want a snack, but I don't want something that will harm my teeth.

Word Work

Answer the questions about vocabulary words from your issue of Scholastic News.

1. What is one way you could prevent the rain from getting you wet?
   - O jump in a puddle
   - O leave your umbrella at home
   - O wear a raincoat

2. Which of these push on your baby teeth?
   - O permanent teeth
   - O dentist teeth
   - O second-grade teeth

3. Where would you find fluoride?
   - O in some toothpaste
   - O in an apple
   - O in a germ

4. Dentists use X-rays to take a picture of the ________ of your mouth.
   - O color
   - O outside
   - O inside

5. What is another word for saliva?
   - O toothpaste
   - O sweat
   - O spit
Make a Dental Tip Poster

**Teachers:** For this activity, students will use what they learned about dental health to make a poster showcasing their favorite dental health tip!

Pass out the poster template on the next page. Walk students through each part of it and how they should fill it in.

**Dental Health Tip**
What do you think is the most important thing you learned about dental health? Write it here!

**Slogan**
A **slogan** is a short, catchy saying. Write one here to make people want to read your poster!

**Picture**
Draw a picture to help people understand your tip.
